PROTECT YOUR LUNGS AND INCREASE THE LIFE OF YOUR TOOLS

The Dust Muzzle™ Ultra

The Worlds Most Efficient Universal Dust Muzzle

- Fits All Grinders
- Flexible Down To -20° F
- Made From Wear-Resistant Polypropylene
- Translucent
- Up To 99% Efficient
- Available In 4"-5", And 7"- 9" Diameters
- Fits 1" And 1 1/2" Hoses
- 100% Guaranteed

The Dust Muzzle Ultra is a one-size-fits-all dust shroud that uses a system of adjustable fingers and spacers to give it over 1 1/2" of vertical flexibility. The patented stretchable adapter ring prevents hose clamp pinch-off and allows it to adapt to the bearing housing of any grinder. Based on the design of the original Dust Muzzle with its side-mounted exhaust port, the Dust Muzzle Ultra is the most efficient design ever made.

\$29.50 Patent pending

The Dust Muzzle Ultra fits all pneumatic and electric right angle grinders

Two Dust Muzzles fit all 4-5" & 7-9" grinders

The stretchable adapter ring prevents hose clamp pinch off on grinders with small diameter bearing housings.

Crack Chasing, Cutting and Tuck Pointing Adapter Plates

4"-5" \$9.95 7" \$14.95

Our snap-on cover plates convert any of our Dust Muzzles into a dustless shroud for crack chasing, tuck pointing or cutting with a saw blade.

- Grinding, Crack Chasing And Cutting
- Fits The 4"-5" And 7" Dust Muzzles
- Lightweight & Rugged
- Transparent
- Fits 4"-7" Cutting Blades

Partner Electric

Stihl

US Patent 6,748,660

The Saw Muzzle™ GP \$159.95

The Saw Muzzle GP is a self-adjusting, constant radius dust collector for the 12-16" gas-powered cut-off saws and the Partner™ 12-16" electric cut-off saw. The Saw Muzzle GP is available for Stihl™, Partner™, Target™, Makita™ and many other brands. When used with a standard industrial vacuum it will remove virtually all the dust created by these powerful tools.

Skil Saw

US Patent 6,557,261

The Saw Muzzle™ \$59.95

The Saw Muzzle is over 95% efficient when used with any Skil™, Milwaukee™, Bosch™ or Makita™ worm drive circular saw. It installs in minutes and is excellent for collecting concrete, wood and fiberglass dust.

Buy a Complete System and Receive a 10% DISCOUNT

Our complete systems include a Nilfisk HEPA vacuum and everything you need for dustless cutting, grinding and crack chasing and scoring.

Faux grout line system

7" Makita™ grinding system

Bosch

US Patent 6,935,939

The Saw Muzzle™ Type E \$79.95

The Saw Muzzle Type E offers dustless cutting for the 10-14" electric cut-off saws that are built on a grinder body with a base plate. It will fit the Bosch™, DeWalt™, Hitachi™ and many others. It can be installed in minutes and is adjustable for any depth of cut.

Hands Free Operation

Available in 2", 3", & 6"

The Dust Muzzle™ DC \$39.95

The Dust Muzzle DC is designed for hands-free cutting with core bits. It is available for hole saws with diameters of 2", 3" or 6". The vacuum suction does double duty by holding the Dust Muzzle DC to any reasonably smooth surface while it removes dust from the work place, even in overhead applications.

The Nilfisk Eliminator HEPA vac

for RRP, OSHA and EPA Toxic Dust Compliance

\$699 (including 12 filters)

The Nilfisk Eliminator comes with a two year warranty and HEPA filter. It is your best choice for a durable, quality manufactured industrial vacuum. It is capable of handling any of our Dust Muzzles or Saw Muzzles including the Saw Muzzle GP for gas-powered cutoff saws.
